HARRISON RV

The Hills

Boise Hunter Homes

Call for Price

The Harrison is a 4,506 sq. ft. floorplan designed for both space and flexibility, featuring an RV garage and true multi-generational suite with its own private entrance, galley kitchen, bedroom, and bath.

A long entryway leads to the heart of the home, where the kitchen and dining area flow seamlessly into the vaulted great room, creating an expansive and inviting space—perfect for families and gatherings. The kitchen is designed for both function and storage, anchored by a large island, a massive walk-in pantry, and easy access to the covered patio. The great room features a wall of windows, while a versatile flex room can serve as an office, playroom, or lounge.

Tucked into the corner, the primary suite is a private retreat, complete with dual walk-in closets and a spa-like bath featuring a tiled shower and soaking tub. Upstairs, an extra-wide staircase makes a striking statement, leading to a spacious bonus room—ideal for entertainment, a home theater, or a game room. Three guest suites, each with its own ensuite bath and walk-in closet, complete the second floor, along with a large covered balcony for additional outdoor living.

The split three-car garage provides ample parking and storage with dual entry points for added convenience.
